### SS&S Care....

It's the heavy-weight that provides an exclusive Guaranteed Next Day Component Replacement program, access to SS&S's Toll-Free Hotline and a whole lot more.

The Ishida BC-4000 Series Price Computing Scales give you more for less – More flexibility, More features, More labeling functions, and More premium-class presets. All for less cost than comparable price computing scales with printers. You can choose from hanging, remote-scale base, or countertop models to fit any application in your store. The native ethernet or optional RF connectivity cables enable this scale to be added to your existing network, helping you to keep total control of all scales in the store.
